TREE DONATION

CERTIFICATE

Dear KRONGAARD GmbH,

Congratulations!

With your support, we can create 500m² of tomorrow's forest and conserve 50 long-standing trees in this area.

Pristine woodland areas are of elementary importance for all of us: they protect our climate, purify the air and store water – all at the same time! They are not only our natural and cultural heritage, but also a habitat and shelter for millions of animal and plant species.

With your forest donation, the Green Forest Fund acquires existing woodland areas in Germany and protects these natural habitats in the long term. We make sure that every single tree there can grow free and without being disturbed for as long as it wants to. So, we help these woodland areas become the climate forests of the future.

This is how you help us create tomorrow's forests and make an important contribution to the protection of the environment, the climate and biodiversity. Thank you very much!
